Social Media
Beginner Level (A1-A2 Level)

Reading

Social media is a popular way for people to communicate and share information online. Many people use social media every day to connect with friends and family.

Popular platforms include Facebook, Instagram, TikTok, and X. People can post photos, videos, and messages. Social media can help us learn new things, meet new people, and find out about current news.

However, it is important to use social media safely and responsibly. We should protect our personal information and be kind to others online. Social media can be a useful tool when used in a positive and balanced way.

Comprehension Questions

1. What is social media?
